

Case Karlshamn Municipality

SUSTAINABLE DEVELOPMENT CONSULTING

The Rejlers' sustainability workshop identified the sustainable development goals and outcomes of Karlshamn's municipal investment projects: the results enabled us to communicate to the decision makers how the energy efficiency projects contribute to sustainable development goals at municipal, national and global levels. The workshop was held in spring 2020.

- + Opportunity to **add sustainability perspectives** to an “ordinary” project
- + Identify opportunities, risks and potential new activities
